AUTHOR INDEX

A

Abbott, D. D., Packman, E. W., Rees, E. W., and Harrisson, J. W. E., a preliminary report of the effect of gastric mucous upon tablet disintegration, 19
——*see* Harrison, J. W. E., 50
——*see* Packman, E. W., 46, 302
Afonso, A., *see* Kupchan, S. M., 731
Aguiar, A., *see* Higuchi, T., 574
Ahlquist, R. P., *see* McCutcheon, R. S., 647
Alexander, T. G., *see* Houk, A. E. H., 217
Ambrus, C. M., *see* Ambrus, J. L., 298
Ambrus, J. L., Back, N., Goldstein, S., Ambrus, C. M., and Harrisson, J. W. E., *in vivo* fibrinolytic effect of various proteolytic enzymes: quantitative tests employing iodine^{131}-labeled clots, 298
Anderson, R. C., Lee, C. C., Worth, H. M., and Harris, P. N., pharmacology and toxicology of propionyl erythromycin ester lauryl sulfate, 623
Ansel, H. C., and Husa, W. J., isotonic solutions VIII. The permeability of red corpuscles to various salts of gluconic acid, 516
Argus, M. F., Newell, M. P., Henderson, J. T., and Ray, F. E., antipyretic and toxicity studies with acetanilid and *o*-, *m*-, and *p*-chloroacetanilid, 204
Armstrong, G. H., *see* Conrad, E. A., 254
Atal, C. K., a phytochemical investigation of *Rauwolfia decurva* Hook, 37
Auerbach, M. E., and Tuckerman, M. M., micromethod for the estimation of anesthetics derived from aminobenzoic acid. Procaine hydrochloride and tetracaine hydrochloride combined in cartridges for dental anesthesia, 194
Autian, J., *see* Kapadia, A. J., 407
——*see* Marcus, E., 457
Avery, M. E., *see* Chiccarelli, F. S., 263
Ayres, C. I., *see* Kupchan, S. M., 440, 735

B

Bacher, F. A., *see* Charnicki, W. F., 656
Back, N., *see* Ambrus, J. L., 298
Bailey, J. H., Coulston, F., and Berberian, D. A., the biological properties of chlorindanol, a new antiseptic agent, 212
Baldinus, J. G., and Rothberg, I., the determination of acetophenetidin in tablet mixtures: a potentiometric method, 318
Bandelin, F. J., and Malesh, W., the solubility of various sulfonamides employed in urinary tract infections, 177
Banes, A. J., Jr., *see* Gorman, M., 256
Banes, D., *see* Houk, A. E. H., 217
Baron, S., *see* Marcus, A. D., 85
Beal, J. L., *see* Sayed, M. D., 38, 43
Berberian, D. A., *see* Bailey, J. H., 212
Berry, C., Burkhalter, A., Davis, L. W., Gross, E. G., and Keasling, H. H., some aspects of the pharmacology of ethyl-4-phenyl-1-[2-(phenylamino)-ethyl]piperidine-4-carboxylate (Win 13,797), 365
Bianculli, J. A., *see* Venturella, V. S., 500
Biles, J. A., *see* Trivedi, J., 583
Blake, M. I., *see* Hopkins, L. V., 222
——*see* Vincent, M. C., 359
Blaug, S. M., and Wesolowski, J. W., the stability of acetylsalicylic acid in suspension, 691
Block, F. B., *see* Foye, W. O., 183
——*see* Smissman, E. E., 526
Bogner, R. L., and Grubb, T. C., studies on the inhalation of vapors from radioactive menthol and camphor, 60
Bolton, S., *see* Higuchi, T., 557
Bope, F. W., *see* Gass, L., 186
Borovanský, A., Sekera, A., and Vrba, Č., studies on local anesthetics XXI. Some derivatives of ω-diethylaminoacetanilide, 402
Bowman, F. W., and Holdowsky, S., sterility of antibiotic ophthalmic ointment, 95
Brady, L. R., and Tyler, V. E., Jr., a chromatographic examination of the alkaloidal fraction of *Amanita pantherina*, 417
Brignall, T. W., *see* Wagner, J. G., 244
Brochmann-Hanssen, E., *see* Kaul, P. N., 638
Brooks, M. S., Sciuchetti, L. A., and Tsao, D. P. N., the effect of adipic acid and methylamine on alkaloid biosynthesis in certain members of the *Solanaceae* I. *Datura stramonium* Linné, 109
Bryan, F. H., and Shuck, G. R., a note on the use of oxygen and carbon dioxide in perfusion fluids, 424
Bryan, G. H., *see* Huitric, A. C., 131
Bryan, J. T., and Lincoln, W. R., determination of rotenone in pharmaceuticals, 330
Buckley, J. P., *see* Watzman, N., 404
Burckhalter, J. H., and Dill, D. R., 8-(dialkylaminoalkylamino) - caffeines as potential pharmacodynamic agents, 190
Burford, H., Gault, A. R., Coker, S. T., and Nobles, W. L., a note on the synthesis and pharmacological activities of a vinylog of nikethamide and some related substances, 669
Burger, A., *see* Wolff, M. E., 56
Burkhalter, A., *see* Berry, C., 365
Burlage, H. M., *see* Cloughly, C. P., 449

C

Campbell, J. A., *see* Morrison, A. B., 634
Cannon, J. G., *see* Vaidya, M. G., 10
Carew, D. P., and Schwarting, A. E., the infection of rye callus with *Claviceps purpurea*, 499
Case, R. W., *see* Lilienfeld, R. M., 130
Castle, R. N., Cox, D. B., and Suttle, J. F., cinnoline chemistry IV. Infrared spectra, 135
Cates, L. A., and Jones, T. E., a note on the synthesis of some alkyl and alkylamine esters of N,N'-diphenylphosphorodiamidic acid, 547
Chakravarty, D. C., and Jones, J. W., quaternary ammonium salts of 8-(dialkylaminoalkoxy) - theobromines and -caffeines as curariform agents, 607
Chapman, D. G., *see* Morrison, A. B., 634
Charnicki, W. F., Bacher, F. A., Freeman, S. A., and DeCesare, D. H., the pharmacy of chlorothiazide (6-chloro-7-sulfamyl-1,2,4-benzothiadiazine-1,1-dioxide): a new orally effective diuretic agent, 656
Chatten, L. G., Pernarowski, M., and Levi, L., the identification and determination of some official local anesthetics as tetraphenylborates, 276
Chiccarelli, F. S., Woolford, M. H., Jr., and Avery, M. E., the spectrophotometric assay for chlortetracycline HCl and tetracycline HCl in pharmaceuticals, 263
Chin, L., and Swinyard, E. A., pentylenetetrazol seizure threshold in meprobamate- and phenaglycodol-treated mice, 6
Christian, J. E., *see* Kaiser, D. G., 650
——*see* Kopplin, J. O., 427, 521
Cloughly, C. P., and Burlage, H. M. an examination of the oil of the seeds of persimmon (*Diospyros Virginiana* L. fam. *Ebenaceae*), 449
Coker, S. T., *see* Burford, H., 669
Cone, N. J., *see* Gorman, M., 256
Conine, J. W., *see* Stephens, V. C., 620
Conrad, E. A., Little, J. M., and Armstrong, G. H., convulsant properties of oral pentylenetetrazol mixtures, 254

SUBJECT INDEX

A

Absorption, comparative rates of, of four commercial analgesic tablets, 50
Acer rubrum L., note on the occurrence of gramine in, 670
p-Acetamidobenzoic acid, salts of, 345
Acetanilid and *o*-, *m*-, and *p*-chloroacetanilid, antipyretic and toxicity studies with, 204
Acetate phthalates, starch (and amylose). Enteric coatings II, 244
Acetophenetidin in tablet mixtures, the determination of: a potentiometric method, 318
Acetylsalicylic acid, the stability of, in suspension, 691
cis-Aconitic anhydride, the colorimetric determination of lidocaine with, 549
Acriflavine emulsion ointment, thermosterilized, 508
Addiction, drug, II. Variation of addiction, 259
Adenosine phosphate derivatives, syntheses in the series of. Analogs of nucleotides III, 56
Adipic acid and methylamine, the effect of, on alkaloid biosynthesis in certain members of the *Solanaceae* I. *Datura stramonium* Linné, 109
Adrenergic drug action, analysis of, 647
Adsorption of odorous materials, studies on the, I. Surface potential changes of solid and liquid adsorbing surfaces, 427; II, Surface potential changes due to the adsorption of alcohol vapors, 521
Air-suspension technique of coating drug particles. A preliminary report, 451
Alcohols, monohydric and polyhydric, the permeability of red corpuscles to some. Isotonic solutions IX, 565
Alkaloid biosynthesis, the effect of adipic acid and methylamine on, in certain members of the *Solanaceae* I. *Datura stramonium* Linné, 109
formation and second-year growth, the effect of gibberellic acid on the, in *Atropa belladonna* Linné, 496
Alkaloidal content of *Hyoscyamus niger*, note on the effect of gibberellins on the, 361
fraction of *Amanita pantherina*, chromatographic examination of the, 417
Alkaloids, hypotensive ester, the structures of germitetrine and some related. Veratrum alkaloids XXXII, 440
opium, in pharmaceuticals, microestimation of, by paper chromatography, 286
sabadilla, VII. Sabatine and its alkamine sabine, 303
solanaceous, note on the use of citric acid and tartaric acid buffers in the extraction of, by centrifugation, 548
tropane, in the presence of morphine, ion exchange separation method for microdetermination of, 445
of *Vinca rosea* Linn. (*Catharanthus roseus* G. Don.) a note on the, II. Catharanthine, lochnericine, vindolinine, and vindoline, 256; V, Preparation and characterization of alkaloids, 659
Alkyl and alkylamine esters of N,N′-diphenylphosphorodiamidic acid, a note on the synthesis of some, 547
Alkylamine and alkyl esters of N,N′-diphenylphosphorodiamidic acid, a note on the synthesis of some, 547
Alloxan, riboflavin, riboflavin-5′-phosphate, phthaloylhydrazine. Metal chelates and antitubercular activity V, 183
Aluminum hydroxide complex, new highly reactive, for gastric hyperacidity I. *In vitro* rate of acid neutralization, 380; II, *In vitro* buffering range and duration of action, 384
Amanita pantherina, chromatographic examination of the alkaloidal fraction of, 417
Amides of bromal, the preparation of some, 388
Amino acid metabolism. Intermediary metabolism of ergot I, 443
Aminoacylaminobenzoic acids, alkyl esters of N-substituted, the synthesis and pharmacology of II, 150
Aminobenzoic acid, micromethod for the estimation of anesthetics derived from. Procaine hydrochloride and tetracaine hydrochloride combined in cartridges for dental anesthesia, 194
4-Amino- and 4-nitro-3-hydroxy-2-naphthoic acids, dialkylaminoethyl esters of, 296
Ammoniated mercury, radiometric method for determination of absorption of, from ointments, 308
Amylose (and starch) acetate phthalates. Enteric coatings II, 244
Analgesic tablets, comparative rate of absorption of four commercial, 50
Anesthetics derived from aminobenzoic acid, micromethod for the estimation of. Procaine hydrochloride and tetracaine hydrochloride combined in cartridges for dental anesthesia, 194
local, the identification and determination of some official, as tetraphenylborates, 276
the colorimetric determination of certain local, with sodium 1,2-naphthoquinone-4-sulfonate, 197
studies on local, XVIII. Some new quaternary salts of basic carbamates, 396; XIX, Substituted phenylcarbamates of piperidinopropanediol, 398; XXI, Some derivatives of ω-diethylaminoacetanilide, 402
Anhydrovitamin A, kinetics of formation of, from vitamin A alcohol and its acetate, 155
Antacids, gastric, 302
gastric, the antisecretory and antipeptic activity of, in the histamine-stimulated rabbit, 46
Antiarrhythmic agents, *in vitro* test for, 283
Antibacterial activity of the heartwood of *Haematoxylon brasiletto*, 69
vapors of volatile substances, studies on, 272
Antibiotic ophthalmic ointment, sterility of, 95
Antifungal studies, and synthesis, on sorbic acid derivatives, 455
Antimicrobial activity, substituted salicylanilides with, 503
substances from seeds, 556
Antimony and arsenic-containing pharmaceuticals, activation analysis of certain, and the effect of beta-emitting isotopes, 650
Antiseptic agent, new, chlorindanol, the biological properties of, 212
Antitubercular activity, and metal chelates, V. Riboflavin, riboflavin-5′-phosphate, alloxan, phthaloylhydrazine, 183
Apomorphine, rapid and sensitive method of quantitative determination of, 638
Arsenic and antimony-containing pharmaceuticals, activation analysis of certain, and the effect of beta-emitting isotopes, 650
Aspirin anhydride, the physical chemical evidence for, as a superior form for the oral administration of aspirin, 676
stability, products, and mechanism in the pyrolytic degradation of. Prediction of stability in pharmaceutical preparations VI, 684
Aspirin and benzyl penicillin, solution rate limited and nonsolution rate limited absorption of; absorption rate of sulfaethylthiadiazole. Urinary excretion kinetics for evaluation of drug absorption I, 489
the physical chemical evidence for aspirin anhydride as a superior form for the oral administration of, 676
Atropa belladonna L. and *Datura stramonium* L., the influence of gibberellic acid on the growth and alkaloid biogenesis in, 63
the effect of gibberellic acid on the second-year growth and alkaloid formation in, 496
Atropine methylbromide and homatropine methylbromide, the kinetics of the hydrolysis of, 106
Azaserine and chloramphenicol, selective activity of, on cell growth and cell division. Studies on cell growth and cell division II, 470

B

Barbiturate salts, analysis of, in various dosage forms by an ion exchange and nonaqueous titration procedure, 359
Barbiturates, the optical crystallographic properties of the xanthyl derivatives of some, 207
Bentonite, study of the cation exchange properties of, with application to the assay of pharmaceuticals, 21
Benzene, halogenated, and heterocyclic compounds, catalytic hydrogenolysis of, 201
Benzenes, nitro and halogenated, D-glucamine and glycine derivatives of. Comparative activities and toxicities III, 419
2-Benzenesulfonamido-5-alkyl-1,3,4-thiadizole, hypoglycemic, inhibition of glucose-6-phosphatase activity by, 113
Benzocaine, procainamide, and procaine, comparison of the kinetics of the acid catalyzed hydrolyses of, 85
Benzodioxan derivative, a new, with adrenergic blocking activity. 2-(N,N-Diallylcarbamylmethyl)aminomethyl-1,4-benzodioxan, 409
Benzyl penicillin and aspirin, solution rate limited and nonsolution rate limited absorption of; absorption rate of sulfaethylthiadiazole. Urinary excretion kinetics for evaluation of drug absorption I, 489
α-Benzylphenethylamines, substituted, 320
Binding of drugs by plastics I. Interaction of bacteriostatic agents with plastic syringes, 457
Bioflavonoids, citrus, quantitative determination of flavanones in, by potassium borohydride reduction, 746
Bisulfite, reactivity of, with a number of pharmaceuticals, 535

Water and Electrolyte Metabolism in Relation to Age and Sex, Ciba Foundation Colloquia on Ageing, Vol. IV, 133
Yardsticks for Industrial Research, 609
Year Book of Drug Therapy, 1958–59 Series, 258
Bromal, the preparation of some amides of, 388
Buffers, citric acid and tartaric acid, a note on the use of, in the extraction of solanaceous alkaloids by centrifugation, 548

C

Caffeines, 8-(dialkylaminoalkylamino)-, as potential pharmacodynamic agents, 190
Camphor and menthol, radioactive, studies on the inhalation of vapors from, 60
Carbamates, basic, some new quaternary salts of. Studies on local anesthetics XVIII, 396
Carbopol 934, sodium salt, pharmaceutical applications of, 92
Casein hydrolysates, the reduction of hydrolysis time and tryptophan destruction in the preparation of, 500
Catharanthine, lochnericine, vindolinine, and vindoline. A note on the alkaloids of *Vinca rosea* Linn. (*Catharanthus roseus* G. Don.) II, 256
Cecropia peltata L., note on the phytochemical investigation of, 129
Cell division and cell growth, studies on, I. A temperature-controlled system for inducing synchronous cell division, 468; II, Selective activity of chloramphenicol and azaserine on cell growth and cell division, 470
Cellular depressants and stimulants, the biological action of, I. The action of ethyl carbamate (urethane) on the endogenous respiration and the rate of cell division in *Tetrahymena pyriformis*, 290; II, The kinetics of the action of urethane on the growth of *Tetrahymena pyriformis*, 666
Chloramphenical and azaserine, selective activity on cell growth and cell division. Studies on cell growth and cell division II, 470
kinetic study of the specific hydrogen ion catalyzed solvolysis of, in water-propylene glycol systems, 77
Chlorindanol, new antiseptic agent, the biological properties of, 212
Chlorine, aromatically-bound, catalytic hydrogenolysis of. Amine derivatives of cyanuric chloride IV, 327
Chloroacetanilid, *o*-, *m*-, and *p*-, and acetanilid, antipyretic and toxicity studies with, 204
Chlorobutanol, the kinetics of degradation of, 390
6-Chloro-7-sulfamyl-1,2,4-benzothiadiazine-1,1-dioxide, chlorothiazide, the pharmacy of: a new orally effective diuretic agent, 656
Chlorothiazide (6-chloro-7-sulfamyl-1,2,4-benzothiadiazine-1,1-dioxide), the pharmacy of: a new orally effective diuretic agent, 656
Chlorpromazine, lysergic acid diethylamide, and 5-hydroxytryptamine, some *in vitro* effects of, on the respiration of rat brain, 251
Chlortetracycline HCl and tetracycline HCl in pharmaceuticals, the spectrophotometric assay for, 263
Chromatographic examination of the alkaloidal fraction of *Amanita pantherina*, 417
paper, evaluation of menthol, 222
technique for the identification of fluorescein and phenolphthalein derivatives, 249
technique, paper, separation of decomposed products of phenobarbital sodium by, 407
Chromatography, paper, microestimation of opium alkaloids in pharmaceuticals by, 286
Cinnamic acid, the synthesis of some derivatives of, and their antifungal action, 750
Cinnoline chemistry IV. Infrared spectra, 135
Citrus bioflavonoids, quantitative determination of flavanones in, by potassium borohydride reduction, 746
Claviceps purpurea, the infection of rye callus with, 499
Cobalt-containing hemopoietic agents, a pharmacologic evaluation of certain, 143
Cobalt chloride, studies on the pharmacology of, 140
Cocaine, further studies on the effects of ephedrine in the presence of, 602
Compression of crystalline substances, 26
Cryptenamine, a *Veratrum viride* alkaloid preparation, the hypotensive principles of. Veratrum alkaloids XXXV, 727
Crystalline substances, compression of, 26
Crystallographic and some physical properties of the oubain hydrates, 583
Curare-meprobamate interaction, a study of, 513
Curariform agents, quaternary ammonium salts of 8-(dialkylaminoalkoxy)-theobromines and -caffeines as, 607
α-Cyano-β-(1-naphthyl)acrylic acid, catalytic hydrogenation of derivatives of, 61
Cyanuric chloride, amine derivatives of, IV. Catalytic hyorogenolysis of aromatically-bound chlorine, 327
Δ³-Cyclohexenone with trifluoroperoxyacetic acid, the reaction of, 526

D

Datura stramonium, L. and *Atropa belladonna* L., the influence of gibberellic acid on the growth and alkaloid biogenesis in, 63
Decarboxylase, glutamic acid, studies on, 103
Degradation of chlorobutanol, the kinetics of, 390
8-(Dialkylaminoalkoxy)-caffeines and-theobromines as curariform agents, quaternary ammonium salts of, 607
8-(Dialkylaminoalkoxy) - theobromines and -caffeines as curariform agents, quaternary ammonium salts of, 607
8-(Dialkylaminoalkylamino) - caffeines as potential pharmacodynamic agents, 190
Dialkylaminoethyl esters of 4-nitro- and 4-amino-3-hydroxy-2-naphthoic acids, 296
2-(N,N-Diallylcarbamylmethyl) aminomethyl - 1,4 - benzodioxan. A new benzodioxan derivative with adrenergic blocking activity, 409
ω-Diethylaminoacetanilide, some derivatives of. Studies on local anesthetics XXI, 402
Diethylstilbestrol, a colorimetric assay for the determination of, 13
Digitalis glycosides, enzymatic decomposition of, IV, 532
Digitalis purpurea L., a study of the influence of gibberellic acid on the morphology, histology, and biosynthesis of the glycosides of first year's growth of, 38

Digoxin preparations, the analysis of, 217
3,5-Diiodo-4-(2′ 3′-dimethylphenoxy)-DL-phenylalanine and its 4′-hydroxy congener, synthesis of. Thyroxine analogs II, 653
N,N′-Dimethyl-diketobenzodiazines, formation of complexes by, in nonaqueous solutions 588
Diospyros Virginiana L., fam. *Ebenaceae*, persimmon, an examination of the oil of the seeds of, 449
Disintegration time of tablets, further studies on the relation between *in vitro*, and the urinary excretion rates of riboflavin, 634
Diuretic activity of various compounds as determined by urinary excretion studies in rats, 335
Drug absorption, urinary excretion kinetics for evaluation of I. Solution rate limited and nonsolution rate limited absorption of aspirin and benzyl penicillin; absorption rate of sulfaethylthiadiazole, 489
addiction II. Variation of addiction, 259
modification of runway behavior of mice influenced by aversive stimulus, 605
particles, air-suspension technique of coating. A preliminary report, 451
release from suppository bases, study of the effect of some emulsifying agents on, 353

E

Electron irradiation, the sterilization of polyethylene bags by, and a bacterial monitor as a measure of sterility, 16
Emulsifying agents, a study of the effect of some, on drug release from suppository bases, 353
Emulsions of varying viscosities, investigation of stability in, 1
Enteric coating materials, a study of permeability to water vapor of fats, waxes, and other, 574
Enteric coatings II. Starch (and amylose) acetate phthalates, 244
Enzymes, proteolytic, *in vivo* fibrinolytic effect of various: quantitative tests employing iodine^{131}-labeled clots, 298
Ephedrine, further studies on the effects of, in the presence of cocaine, 602
Epinephrine, determination of, in the presence of degradation products, 553
Ergot intermediary metabolism of, I. Amino acid metabolism, 443
Erythromycin, esters of, IV. Alkyl sulfate salts, 620
propionyl, ester lauryl sulfate, pharmacology and toxicology of, 623
Escape reaction and righting-reflex sleeping times in the mouse, the relative reliability of the, 90
Escholerine, a hypotensive ester alkaloid, the structure of, 735
N-Ethoxy-N-ethyl-*m*-toluamide insecticide, a note on, 485
Ethyl carbamate (urethane), the action of, on the endogenous respiration and the rate of cell division in *Tetrahymena pyriformis*. The biological action of cellular depressants and stimulants I, 290
Ethylene oxide sterilization of spores in hygroscopic environments, 617
Ethyl-4-phenyl-1-[2-(phenylamino) ethyl]-piperidine-4-carboxylate (Win 13,797), some aspects of the pharmacology of, 365
1-Ethylsulfonyl-4-ethylpiperazine, the preparation of oxidized derivatives of, 412

F

Fagopyrum esculentum Moench and the biosynthesis of rutin, a study of the influence of gibberellic acid on the growth of, 43
Fibrinolytic effects *in vivo*, of various proteolytic enzymes: quantitative tests employing iodine^{131}-labeled clots, 298
Financial statement, United States Pharmacopoeial Convention, Inc., annual, 488
Flavanones, quantitative determination of, in citrus bioflavonoids by potassium borohydride reduction, 746
Fluorescein and phenolphthalein derivatives, chromatographic technique for the identification of, 249
Folic acid method involving permanganate oxidation, 236

G

Gamma-thujaplicin, a pharmacological study of, 722
Gastric antacids, 302
hyperacidity, a new highly reactive aluminum hydroxide complex for, I. *In vitro* rate of acid neutralization, 380; II, *In vitro* buffering range and duration of action, 384
mucous, a preliminary report of the effect of, upon tablet disintegration, 19
Germanitrine, a hypotensive ester alkaloid, the structure of. Veratrum alkaloids XXXVII, 731
Germbudine, a hypotensive ester alkaloid, the structure of, 737
Germitetrine and some related hypotensive ester alkaloids, the structures of. Veratrum alkaloids XXXII, 440
Gibberellic acid, the effect of, on the second-year growth and alkaloid formation in *Atropa belladonna* Linné′, 496
the influence of, on the growth and alkaloid biogenesis in *Datura stramonium* L. and in *Atropa belladonna* L., 63
polarography of, 631
study of the influence of, on the growth of *Fagopyrum esculentum* Moench and the biosynthesis of rutin, 43
study of the influence of, on the morphology, histology, and biosynthesis of the glycosides of first year's growth of *Digitalis purpurea* L., 38
toxicologic and pharmacologic studies, 127
Gibberellins, a note on the effect of, on alkaloidal content of *Hyoscyamus niger*, 361
D-Glucamine and glycine derivatives of nitro and halogenated benzenes. Comparative activities and toxicities III, 419
Gluconic acid, the permeability of red corpuscles to various salts of. Isotonic solutions VIII, 516
Glucose-6-phosphatase activity, inhibition of, by hypoglycemic 2-benzenesulfonamido-5-alkyl-1,3,4-thiadiazoles, 113
Glutamic acid decarboxylase, studies on, 103
Glutathione, influence of, on the inhibition of *Escherichia coli* by kanamycin, 463
Glycine and D-glucamine derivatives of nitro and halogenated benzenes. Comparative activities and toxicities III, 419
Glycosides, digitalis, enzymatic decomposition of, IV, 532
a study of the influence of gibberellic acid on the morphology, histology, and biosynthesis of the, of first year's growth of *Digitalis purpurea* L., 38
Gramine in *Acer rubrum* L., a note on the occurrence of, 670
N-Guanidino-p-benzoquinone imine hydrazine derivatives, a note on condensation reactions of. The *in vivo* antibacterial activity of one derivative, 73

H

Haematoxylon braziletto, antibacterial activity of the heartwood of, 69
Halogenated benzene and heterocyclic compounds, catalytic hydrogenolysis of, 201
and nitro benzenes, D-glucamine and glycine derivatives of. Comparative activities and toxicities III, 419
Hemopoietic agents, a pharmacologic evaluation of certain cobalt-containing, 143
Hepatolienography, new iodine compounds for, 181
Heterocyclic compounds and halogenated benzene, catalytic hydrogenolysis of, 201
Homatropine methylbromide and atropine methylbromide, the kinetics of the hydrolysis of, 106
Hydrazine derivatives, a note on condensation reactions of N-guanidino-*p*-benzoquinone imine. The *in vivo* antibacterial activity of one derivative, 73
Hydrogen cyanide, neurotoxicity of, 224
16α-Hydroxy steroids II. Partition chromatography of triamcinolone and related steroids, 528
p-Hydroxybenzoates in the presence of Tween 80, correlation of binding data with required preservative concentrations of. Interaction of preservatives with macromolecules II, 310
8-Hydroxy-2-quinoline acrylic acid, derivatives of, 10
5-Hydroxytryptamine, chlorpromazine, and lysergic acid diethylamide, some *in vitro* effects of, on the respiration of rat brain, 251
Hyoscyamus niger, a note on the effect of gibberellins on alkaloidal content of, 361
Hypercholesterolized cockerels, the effect of nicotine on, 115
Hypotensive effects, a comparison of, of the monophosphoric acid ester of thiamine and thiamine hydrochloride, 404

I

Injectable solutions, osmotic concentration and osmotic pressure in, 628
Insecticide, N-ethoxy-N-ethyl-*m*-toluamide, note on, 485
Iodinated organic compounds, the evaluation of, as radiopaque media, 368
Iodine compounds, new, for hepatolienography, 181
Isotonic solutions VIII. The permeability of red corpuscles to various salts of gluconic acid, 516; IX, The permeability of red corpuscles to some monohydric and polyhydric alcohols, 565; X, The permeability of red corpuscles to various local anesthetics, 569
Isotopes, note on a simplified technique for the administration of, to animals, 130

K

Kanamycin, influence of glutathione on the inhibition of *Escherichia coli* by, 463

L

Labiatae family, 132
Lanthionine, an improved method for the determination of, 324
Lidocaine with *cis*-aconitic anhydride, the colorimetric determination of, 549
Lochnericine, catharanthine, vindolilinine, and vindoline. A note on the alkaloids of *Vinca rosea* Linn. (*Catharanthus roseus* G. Don.) II, 256
Lomatium Grayi, a note on the volatile oil from the fruits of, 302
Lomatium Suksdorfii, a note on the preliminary phytochemical and biological study of, 423
LSD-Serotonin central interaction, a study of, 165
Lysergic acid diethylamide, chlorpromazine, and 5-hydroxytryptamine, some *in vitro* effects of, on the respiration of rat brain, 251

M

Maianthemum Canadense (Desf.), pharmacognostical and phytochemical study of, 743
Malonamide and its alkyl derivatives, dinitrile formation in the attempted acylation of, 148
Menthol and camphor, radioactive, studies on the inhalation of vapors from, 60
paper chromatographic evaluation of, 222

Meprobamate-curare interaction, a study of, 513
Meprobamate, an improved colorimetric method for the determination of, in biological fluids, 740
and phenaglycodol-treated mice, pentylenetetrazol seizure threshold in, 6
tritium-labeled, 415
Mercury, ammoniated, from ointments, radiometric method for determination of absorption of, 308
Mescaline and yohimbine, the effect of, on the respiration of rat brain homogenate, 332
Metal chelates and antitubercular activity V. Riboflavin, riboflavin-5′-phosphate, alloxan, phthaloylhydrazine, 183
Methyl DL-**α-phenyl-2-piperidylacetate,** kinetic study of the hydrolysis of, 431
Methylamine and adipic acid, the effect of, on akaloid biosynthesis in certain members of the *Solanaceae* I. *Datura stramonium* Linne', 109
Morphine, ion exchange separation method for microdetermination of tropane alkaloids in the presence of, 445
Mouthwashes, effect of, on the oral flora, 219

N

Naphazoline, kinetics of the specific base-catalyzed hydrolysis of, 641
Nicotine, the effect of, on hypercholesterolized cockerels, 115
Nikethamide and some related substances, note on the synthesis and pharmacological activities of a vinylog of, 669
4-Nitro-and 4-amino-3-hydroxy-2-naphthoic acids, dialkylaminoethyl esters of, 296
Nitro and halogenated benzenes, D-glucamine and glycine derivatives of. Comparative activities and toxicities III, 419
Nucleotides, analogs of, III. Syntheses in the series of adenosine phosphate derivatives, 56

O

Odorous materials, studies on the adsorption of, I. Surface potential changes of solid and liquid adsorbing surfaces, 427; II. Surface potential changes due to the adsorption of alcohol vapors, 521
Ointments, radiometric method for determination of absorption of ammoniated mercury from, 308
Oleanolic acid, isolation of, from *Sesbania Aegyptica* Pers. Saponins and sapogenins IV, 466
Ophthalmic ointment, antibiotic, the sterility of, 95
Opium alkaloids in pharmaceuticals, microestimation of, by paper chromatography, 286
Optical crystallographic properties of the xanthyl derivatives of some barbiturates, 207
Oral flora, the effect of mouthwashes on the, 219
Ouabain hydrates, some physical and crystallographic properties of the, 583
Oximes, the preparation of some derivatives of, 186
Oxygen and carbon dioxide, note on the use of, in perfusion fluids, 424
Oxytetracycline and tetracycline, the solubility and complexing properties of, III. Interactions in aqueous solution with model compounds, biochemicals, metals, chelates, and hexametaphosphate, 557
Oxytocics, quantitative evaluation *in vitro* of, 9

P

Parahydroxybenzoic acid esters in the presence of some hydrophilic polymers. Interaction of preservatives with macromolecules III, 315
Pentylenetetrazol mixtures, convulsant properties of oral, 254
seizure threshold in meprobamate- and phenaglycodol-treated mice, 6
Perfusion fluids, note on the use of oxygen and carbon dioxide in, 424
Persimmon (*Diospyros Virginiana* L., fam. *Ebenaceae*), an examination of the oil of the seeds of, 449
Pharmaceuticals, study of the cation exchange properties of bentonite with application to the assay of, 21
Phenaglycodol- and meprobamate-treated mice, pentylenetetrazol seizure threshold in, 6
Phenobarbital sodium, separation of decomposed products of, by paper chromatographic technique, 407
Phenolphthalein and fluorescein derivatives, chromatographic technique for the identification of, 249
Phenothiazine derivatives: a new complex salt, colorimetric assay for unoxidized, 240
with tranquilizing properties, the analysis of, 117
Phenylcarbamates of piperidinopropanediol, substituted. Studies on local anesthetics, XIX, 398
Phenylephrine and tetracaine, analysis of, by filter paper chromatography, 111
Phenylmercury amide and imide compounds, polarography of some, 268
Phthaloylhydrazine, riboflavin, riboflavin-5′-phosphate, alloxan. Metal chelates and antitubercular activity V, 183
Piperidinopropanediol, substituted phenylcarbamates of. Studies on local anesthetics XIX, 398
Plastic syringes, interaction of bacteriostatic agents with. Binding of drugs by plastics I, 457
Polarography of gibberellic acid, 631
of some phenylmercury amide and imide compounds, 268
Polyethylene bags, the sterilization of, by electron irradiation and a bacterial monitor as a measure of sterility, 16
Polymers, hydrophilic, parahydroxybenzoic acid esters in the presence of some. Interaction of preservatives with macromolecules III, 315
Preservatives with macromolecules, interaction of, II. Correlation of binding data with required preservative concentrations of *p*-hydroxybenzoates in the presence of Tween 80, 310; III. Parahydroxybenzoic acid esters in the presence of some hydrophilic polymers, 315
Procainamide, procaine, and benzocaine, a comparison of the kinetics of the acid catalyzed hydrolyses of, 85
Procaine, procainamide, and benzocaine, comparison of the kinetics of the acid catalyzed hydrolyses of, 85
Procaine HCl and tetracaine HCl combined in cartridges for dental anesthesia. Micromethod for the estimation of anesthetics derived from aminobenzoic acid, 194
Propionyl erythromycin ester lauryl sulfate, pharmacology and toxicology of, 623
Protective effects of air under pressure on certain pharmaceuticals during steam autoclaving, 541
Proteolytic enzymes, *in vitro* fibrinolytic effects of various: quantitative tests employing iodine ^{131}-labeled clots, 298

Q

Quaternary ammonium salts of 8-(dialkylaminoalkoxy) - theobromines and -caffeines as curariform agents, 607
salts of basic carbamates, some new. Studies on local anesthetics XVIII, 396

R

Radioactive menthol and camphor, studies on the inhalation of vapors from, 60
Radiometric method for determination of absorption of ammoniated mercury from ointments, 308
Radiopaque media, the evaluation of iodinated organic compounds as, 368
Rauwolfia alkaloids, other, reserpine, and related compounds, spectrophotofluorometry of, 479
Rauwolfia decurva Hook, phytochemical investigation of, 37
Reserpine, other rauwolfia alkaloids, and related compounds, spectrophotofluorometry of, 479
Riboflavin, further studies on the relation between *in vitro* disintegration time of tablets and the urinary excretion rates of, 634
riboflavin-5′-phosphate, alloxan, phthaloylhydrazine. Metal chelates and antitubercular activity V, 183
Riboflavin-5′-phosphate, riboflavin, alloxan, phthaloylhydrazine. Metal chelates and antitubercular activity V, 183
Righting-reflex sleeping times and the escape reaction in the mouse, the relative reliability of, 90
Rotenone in pharmaceuticals, determination of, 330
Runway behavior of mice, drug modification of, influenced by aversive stimulus, 695
Rutin, biosynthesis of, and the growth of *Fagopyrum esculentum* Moench, a study of the influence of gibberellic acid on the growth of, 43

S

Sabadilla alkaloids VII. Sabatine and its alkamine sabine, 303
Sabatine and its alkamine sabine. Sabadilla alkaloids VII, 303
Sabine, sabatine and its alkamine. Sabadilla alkaloids VII, 303
Salicylanilides, substituted, with antimicrobial activity, 503
Sapogenins and saponins IV. Isolation of oleanolic acid from *Sesbania Aegyptica* Pers., 466
steroidal, LV. Survey of plants for steroidal sapogenins and other constituents, 695
Saponins and sapogenins IV. Isolation of oleanolic acid from *Sesbania Aegyptica* Pers., 466
Sarcosine anhydride, complexes formed in aqueous solutions by. Interactions with organic acids, phenols, and aromatic alcohols, 592
Seeds, antimicrobial substances from, 356
Serotonin-LSD central interaction, study of, 165
Sesbania Aegyptica Pers., isolation of oleanolic acid from. Saponins and sapogenins IV, 466
Sodium 1,2-naphthoquinone-4-sulfonate, the colorimetric determination of certain local anesthetics with, 197
Sorbic acid derivatives, synthesis and antifungal studies on, 455
Spectrophotofluorometry of reserpine, other rauwolfia alkaloids, and related compounds, 479
Spectrophotometric assay for chlortetracycline HCl and tetracycline HCl in pharmaceuticals, 263
Spermicides, a note on the therapeutic index of: sensitivity to vaginal jellies, 486
Stability in pharmaceutical preparations, predictions of, V. The solution degradation of the antibiotic streptovaricin, 169; VI. Stability, products, and mechanism in the pyrolytic degradation of aspirin anhydride, 684
testing laboratory, a comprehensive pharmaceutical, I. Physical layout of laboratory and facilities available for stability testing, 226; II. Record and control system employed for the laboratory, 233
Starch (and amylose) acetate phthalates. Enteric coatings II, 244
Steam autoclaving, protective effects of air under pressure on certain pharmaceuticals during, 541
Sterility of antibiotic ophthalmic ointment, 95
the sterilization of polyethylene bags by electron irradiation and a bacterial monitor as a measure of, 16
Sterilization of polyethylene bags by electron irradiation and a bacterial monitor as a measure of sterility, 16
of spores, ethylene oxide, in hygroscopic environments, 617
Steroidal sapogenins LV. Survey of plants for steroidal sapogenins and other constituents, 695
Steroids, 16α-hydroxy, I. Characterization of triamcinolone, 348; II. Partition chromatography of triamcinolore and related steroids, 528

Streptovaricin, antibiotic, the solution degradation of the. Prediction of stability in pharmaceutical preparations V, 169
Sulfaethylthiadiazole, absorption rate of; solution rate limited and nonsolution rate limited absorption of aspirin and benzyl penicillin. Urinary excretion kinetics for evaluation of drug absorption I, 489
V. Design and study of an oral sustained release dosage form, 473
Sulfonamides, the solubility of various, employed in urinary tract infections, 177
Suppository bases, study of the effect of some emulsifying agents on drug release from, 353
Suspension, air-, technique of coating drug particles. A preliminary report, 451
Sustained release dosage form, oral, design and study of. Sulfaethylthiadiazole V, 473

T

Tablet disintegration, preliminary report of the effect of gastric mucous upon, 19
granulation, the amount of fines necessary for, 362
Tablets, analgesic, comparative rate of absorption of four commercial, 50
further studies on the relation between *in vitro* disintegration time of, and the urinary excretion rates of riboflavin, 634
Tetracaine and phenylephrine, analysis of, by filter paper chromatography, 111
Tetracaine HCl and procaine HCl combined in cartridges for dental anesthesia. Micromethod for the estimation of anesthetics derived from aminobenzoic acid, 194
Tetracycline absorption, influence of dissolution rate and surface on, 96
and oxytetracycline, the solubility and complexing properties of, III. Interactions in aqueous solution with model compounds, biochemicals, metals, chelates, and hexametaphosphate, 557
Tetracycline HCl and chlortetracycline HCl in pharmaceuticals, the spectrophotometric assay for, 263
Tetrahymena pyriformis, the kinetics of the action of urethane on the growth of. The biological action of cellular depressants and stimulants II, 666
Tetraphenylborates, the identification and determination of some official local anesthetics as, 276
Thenylpyramine HCl, note on the crystallography of, 487
Thiamin, the gravimetric silicotungstate method of assay for, in the presence of interfering substances, 34
study of the gravimetric silicotungstate method of assay for, 30
Thiamine and thiamine HCl, a comparison of the hypotensive effects of the monophosphoric acid ester of, 404
Thiochrome, note on the stability of vitamin B_{12} in the presence of, 425
γ-Thujaplicin, pharmacological study of, 722
Thymectomizing the rat, note on a method for, 130
Thyroxine analogs II. Synthesis of 3,5-diiodo-4-(2′,3′-dimethylphenoxy)-DL-phenylalanine and its 4′-hydroxy congener, 653
2 - (*o* - Tolyl) - cyclohexanol: possible cardioplegic agent, 131
Triamcinolone, characterization of, 16-α-Hydroxy steroids I, 348
and related steroids, partition chromatography of. 16α-Hydroxy steroids II, 528
Trifluoroperoxyacetic acid, the reaction of Δ^2-cyclohexenone with, 526
Tritium-labeled meprobamate, 415
Tropane alkaloids in the presence of morphine, ion exchange separation method for microdetermination of, 445
Tryptophan destruction and the reduction of hydrolysis time in the preparation of casein hydrolysates, 500
Tung oil, American, chemical study of, 162
Tween 80, correlation of binding data with required preservative concentrations of *p*-hydroxybenzoates in the presence of. Interaction of preservatives with macromolecules II, 510

U

United States Pharmacopoeial Convention, Inc. annual financial statement, 488
Urazole derivatives, some aspects of the central nervous system activity of a series of, 122
derivatives, some aspects of the central nervous system activity of, II, 671
Urethane (ethyl carbamate), action of, on the endogenous respiration and rate of cell division in *Tetrahymena pyriformis*. The biological action of cellular depressants and stimulants I, 290
the kinetics of the action of, on the growth of *Tetrahymena pyriformis*. The biological action of cellular depressants and stimulants II, 666
Urinary excretion kinetics for evaluation of drug absorption I. Solution rate limited and nonsolution rate limited absorption of aspirin and benzyl penicillin; absorption rate of sulfaethylthiadiazole, 489
excretion studies in rats, diuretic activity of various compounds as determined by, 335

V

Vaginal jellies, sensitivity to: a note on the therapeutic index of spermicides, 486
Veratrum alkaloids XXXII. The structures of germitetrine and some related hypotensive ester alkaloids, 440; XXXV. The hypotensive principles of cryptenamine, a *Veratrum viride* alkaloid preparation, 727; XXXVII. The structure of germanitrine, a hypotensive ester alkaloid, 731; XL. The structure of escholerine, a hypotensive ester alkaloid, 735; XLI. The structure of germbudine, a hypotensive ester alkaloid, 737
Vinca rosea Linn. (Catharanthus roseus G. Don.), alkaloids of, V. Preparation and characterization of alkaloids, 659
a note on the alkaloids of, II. Catharanthine, lochnericine, vindolinine, and vindoline, 256
Vindoline, catharanthine, lochnericine, and vindolinine. A note on the alkaloids of *Vinca rosea* Linn. (*Catharanthus roseus* G. Don.) II, 256
Vindolinine, catharanthine, lochnericine, and vindoline. A note on the alkaloids of *Vinca rosea* Linn. (*Catharanthus roseus* G. Don.) II, 256
Vitamin A alcohol and its acetate, kinetics of formation of anhydrovitamin A from, 155
simplified procedure for the determination of, 611
Vitamin B_{12} in the presence of thiochrome, note on the stability of, 425
Volatile oil from the fruits of *Lomatium Grayi*, note on the, 302
substances, studies on antibacterial vapors of, 272

W

Water-propylene glycol systems, kinetic study of the specific hydrogen ion catalyzed solvolysis of chloramphenicol in, 77
Win, 13,797, ethyl-4-phenyl-1-[2-(phenylamino)ethyl]-piperidine-4-carboxylate, some aspects of the pharmacology of, 365

X

Xanthyl derivatives of some barbiturates, optical crystallographic properties of the, 207

Y

Yohimbine and mescaline, the effect of, on the respiration of rat brain homogenate, 332
